Villa located in one of the best areas of the town of Cela. Single-storey house with a simple, pleasant and practical distribution. The plot where the property sits measures about 400m² and has some olive trees. There is enough space to build a good size pool. This would put a great value on this property. Currently the land that surrounds the house is a recreation area, allowing it to be used as desired.

The property is accessed through an iron gate, in front of it we have in the first place a beautiful porch that gives us entrance to the house. Upon entering we find a large perfectly conditioned room. To the right, a corridor gives us access to the rest of the house. Through the corridor we access a magnificent kitchen with a separate laundry / storage room. The kitchen is fully assembled and in perfect condition. Next we have two bedrooms, one on each side of the hall and a bathroom. The third bedroom has an en-suite bathroom. The house is furnished. This house is sold at a good price considering the value of the land that is totally urban. The entire property is fenced. It does not need any reform, except some cosmetic paint work. In the town we find these services such as a shop, school, sports court, real estate, guadalinfo, medical consultation, a wide variety of bars where you can try the rich gastronomy of local food.
